Subject: Financial Assurance at Franklin, IN Site

Juan,

We are in the process of making some changes with our banking group which will require a change in the bank that provides the Letter of Credit for the financial assurance at the former Amphenol Facility in Franklin.

Can you let us know who we need to contact to ensure that we have the correct information for the new LC? I've copied Howard Wardlow from our Treasury Department on this email. He will be coordinating the new LC. Any correspondence on this matter should be directed to him.

Thanks and best regards,

Sam
